PRELIMINARY AMENDMENT

Sir or Madam:

Please amend the specification (Sequence Listing at pages 25-29) by substituting the enclosed corrected Sequence Listing pages 25-29. The amendments are in response to the NOTICE TO COMPLY WITH REQUIREMENTS FOR PATENT APPLICATIONS CONTAINING NUCLEOTIDE SEQUENCE AND/OR AMINO ACID SEQUENCE DISCLOSURES, attached to the Office Communication, dated 12 December 2000. No new matter has been added. Entry of the Amendment is respectfully requested.

REMARKS

Applicant's, while including a sequence listing in the above-identified divisional application (i.e., at pages 25-29), failed to submit a separate sequence listing. Accordingly, applicants now submit the appropriate sequence listing in paper (C.F.R. 1.821(c)) and computer-readable form (C.F.R. 1.821(e)), along with applicant's statement under (C.F.R. 1.821(f)). Minor corrections to the Sequence Listing, as originally disclosed in the specification, have been made to bring the sequence listing into conformity with the requirements of C.F.R. 1.821-1.825. The presently-submitted Sequence Listing conforms with that of the underlying parent application (Serial No. 09/234,208). No new matter has been added.
